

Join Us for a Very Special Lunch & Learn

Impact Theatre is a community-wide educational initiative to shine a light on the common history of oppression and persecution of both Jewish and African-American peoples and to strive for social justice.

We have the honor to show the documentary that was made about the experiences between Jewish teens and African American survivors of segregation and African American teens and Jewish Holocaust survivors.

Introduction by Bette Zaret, founder of Impact Theater and Director of Holocaust Education for Jewish Federation of Sarasota-Manatee.
